

REWINDERS

RT series

RT series rewinders are specially conceived for facilitating the archivists' daily routine.

- ✓ **RT27** 16/35mm 600m manual unidirectional table
- ✓ **RT28** 16/35mm 600m electrical unidirectional table

They are ideal for handling negatives, positives or very delicate archival material. They allow both: smooth rewinding for fragile films or fast for films in a good condition. The speed can be adjusted manually for RT27 model or electrically for RT28 model.

RETRACTABLE CORE

Hand lever to retract core upon take-up plates makes film manipulation easier. It facilitates the safe recovery of the reel. Only the tables of the brand DeBrie are equipped with this functionality.

MULTI-UNIT COUNTER

It measures the film length in different formats (frames, feet, meters and decimeters, time in 24-25 fps).

PARTICLE TRANSFER ROLLERS

Fitted Particle Transfer Rollers (PTRs), allow to remove dust, dirt and other unwanted particles from both sides (Optional).

TECHNICAL SPECIFICATIONS

- Capacity: 600 m
- Formats: 16/35 mm
- Winding speed: up to 300-500 m/min (RT28)
- Speed control: handle, manual or foot pedal
- Power : 110/220 V - 50/60 Hz - 10 Amp (RT28)

DIMENSIONS

- Length: 1000 mm
- Width: 500 to 640 mm
- Height: 900 mm
- Net weight: 40 kg
